<p><i>Voter Rationale: Ausbil's proxy advisor Ownership Matters recommends voting FOR the remuneration report whereas ACSI recommends voting AGAINST. The contentious issue is how the board has decided to deal with the two fatalities in 2023 (one contractor and one member of staff) from a remuneration perspective. After internal deliberation and engagement with the company, Ausbil has decided to vote FOR all resolutions. Ausbil has engaged with WOW about the fatalities twice in the past and again with the board today. Based on those engagements we have developed a preliminary understanding of how the fatalities happened. Based on our understanding, in both cases there was faulty equipment involved, although initial analysis by the company has not found any signs of negligence by the company. It appears that the investigations by Work Safe are still ongoing and from our engagement with the board we understand that the board has the ability to make further adjustment to executive remuneration in FY24 should the investigations unearth new information. From a holistic perspective, we believe remuneration outcomes in FY23 are generally aligned with shareholders' experience. However, fatalities are tragic events and we believe the two incidents in FY23 have exposed a weakness in WOW's current executive remuneration framework: while it is important to embed safety culture through remuneration more broadly throughout an organisation, we believe the impact of two fatalities should mainly impact executive management. This would demonstrate accountability from the top and also reduces potential internal adverse impacts, e.g. on staff engagement and / or industrial relations. By focusing the impact on senior management, it also reduces the risk that junior managers are unduly impacted by events outside their control. However, in this case, the safety metric in the short-term incentive cascades down through WOW as an organisation, affecting a large number of managers. To that end, we have proposed that WOW implements fatality gateway hurdles for executive management in regards to the safety component going forward. Based on our conversation with the board, WOW is open to consider this. In this particular case, the safety component of the executive remuneration framework is currently based on the severity rate (workplace injuries) only while fatalities are not considered in that metric, although the board has subsequently applied a discretionary downward adjustment of 10% of the scorecard outcome to reflect the fatalities. Ausbil does not have a strong view on how much a bonus should be affected by fatalities in general. We believe it depends on the nature of these and how much the circumstances were in management's control as well as findings from the subsequent investigations (in this case, the latter is still outstanding). WOW's board bases the appropriateness of 10% reduction to the total scorecard outcome on independent advice which considered how other listed companies have dealt with executive remuneration in years of fatalities in the last 10 years. Notwithstanding our concerns about the executive remuneration framework discussed above, at least we believe WOW has applied discretionary adjustments to the outcome produced by the scorecard and in doing so, followed a sound process by basing it on peer analysis. Ausbil has expressed our view on the treatment of the fatalities from an executive remuneration perspective but on a holistic basis, we do not believe the concerns warrant a vote against the entire remuneration report and Ausbil therefore intends to vote FOR the remuneration report. We will also hold the board accountable to the commitment of further downwards adjustments to executive remuneration should the investigations, once concluded, provide a different view to the initial assessment.</i></p>

1	Elect Debra Bakker as Director	Mgmt	For	For	For
Voter Rationale: Ausbil has engaged with IGO. Ausbil intends to support resolution 1 and 6, whereas ACSI recommends to vote AGAINST. On resolution 1, Ausbil supports the re-election of Debra Bakker's. Over the past 7 years, we believe she has brought valuable M&A and transaction experience to the Board. We also believe it's important to maintain board continuity given the significant board turnover in recent years. Debra's historical knowledge is particularly valuable as the Board has experienced significant renewal in recent years. Furthermore, in our engagement with the Chair, he has stated that the Board has learned from the Western Areas transaction and, going forward, IGO would engage an external party for independent assessments on potential future transactions as an additional layer of scrutiny.

5	Approve Issuance of Performance Rights to Ivan Vella	Mgmt	For	For	For
6	Approve Termination Payment to Ivan Vella	Mgmt	For	For	For
Voter Rationale: Ausbil has engaged with IGO. Ausbil intends to support resolution 1 and 6, whereas ACSI recommends to vote AGAINST. On resolution 6, Ausbil acknowledges the concerns raised by the proxy advisor. Based on our engagement with the Chair, the redundancy/termination payment would only be paid in limited circumstances, effectively only under a change of control transaction or moving of head office. Also, the Board would exercise discretion over the payment too. Ausbil holds the belief that Ivan Vella possess a high calibre and that his appointment is a significant positive for the company. Considering the value attributed to his calibre and the benefits we expect him to bring to the organisation, Ausbil supports the resolution.

Voter Rationale: After engaging with the Chair, Ausbil intends to vote FOR resolution 6 which is to vote on the FY24 LTI grant to the CEO, of which ACSI has recommended to vote AGAINST. On balance, Ausbil would like to support them on this resolution this year, noting that we are confident the Board would exercise downward discretion on the basis of poor performance and that there is increased competition for talent in this particular industry. We have expressed our views on our various concerns on the LTI structure and have encouraged them to consider introducing other hurdles such as megawatt hurdle, or an equivalent EPS or EBITDA in their LTI, as well as organising formal remuneration feedback meetings with shareholders post-reporting season in August. Ultimately we reserve the right to consider voting against the remuneration report in future years if the company disappoints on performance and/or we feel our engagements aren't resulting in change.

<i>Voter Rationale: Ausbil intends to vote against resolution 4 (approval of CEO performance rights), whereas ACSI recommends voting FOR. Ausbil intends to vote in line with ACSI, i.e. FOR all other resolutions. Ausbil's rationale for voting against the approval of the CEO performance right is that we believe management is not aligned with shareholders; in our view, the 3-year performance hurdle (EPS CAGR) is significantly below consensus forecasts and, therefore, not sufficiently demanding: the top threshold for the 3-year EPS CAGR hurdle is 9%, which is materially below consensus forecast EPS CAGR of 23% from FY23-26. Whereas the RHC has a ROIC gateway hurdle, that is set a low level too (ROIC needs to be above WACC).</i>

Voter Rationale: Ausbil intends to vote AGAINST whereas our proxy advisor recommends voting FOR. We believe that AKE in its current form, as an independent company listed on the ASX, is more appropriate to support its growth plans which we believe may add value for shareholders over the long term. We believe that the merger ratio for AKE in the merged entity is not appropriate having regard to the nature and size of AKE's business relative to Livent (source: independent expert report). It was difficult to ascertain unequivocally the 'true' value of Livent in the merged entity from the information that are available.
